CURA In-Home Care

Support at Home Price Schedule

Effective 1 August 2026

Welcome to CURA In-Home Care

When choosing CURA In-Home Care as your provider, you can be assured that we are committed to delivering high-quality, person-centred care and support services that enable you to remain living independently and confidently in your own home.

CURA In-Home Care is a not-for-profit organisation dedicated to supporting older Australians to maintain their independence, wellbeing and connection to their community. Our experienced and compassionate team work alongside you to develop services that reflect your individual goals, preferences and support needs.

We understand that navigating aged care services can sometimes be complex. Our team is available to assist you in understanding your funding, services and options so that you can make informed decisions about your care and support.

Funding and Fees

The level of funding you receive will depend on the Support at Home classification allocated to you by the Australian Government. Your available funding and any required participant contributions will be advised by Services Australia.

In addition to government-funded services, CURA can provide private services where additional support is required beyond your available funding.

The pricing contained within this schedule reflects the cost of delivering high-quality services, including staff wages, training, supervision, travel, administration, quality assurance and compliance requirements.

Services delivered for less than one hour may be charged on a pro-rata basis in accordance with the duration of service provided.
